1981  
Dear John,

I thought I would take a moment to sit down and share some of what has been coming through recently.

Last night while in meditation I saw before scenes of ancient Egypt unfolding and saw you as a Pharaoh of Egypt overseeing plans for the construction of a new area of a city. Beside you stood your wife and together you were making plans to add your mark on the city by adding a complex of buildings which would be in the latest style of architecture.

It was during this life you began to put forth the energy from your soul level to reach out and help humanity the best you knew how. It is much the same energy and desire from the soul level that is driving you now to bring about the foundation. In some lives you have worked at upgrading the physical surroundings of man and his living conditions. In other lives you have worked more on upgrading man's spiritual life. In this life it is more aimed at upgrading the whole of man rather than one or the other. In this life, w/ this foundation you are attempting to bring about an expression of the desire to help physical man, the desire started in Ancient Egypt and the desire to help spiritual man, which was

started at the time of Jesus and re-established once again in the life of Saint John of the Cross. This does not mean these desires for these goals were begun in those particular lives, but rather required to a new expression. The fire of service began before moving here to this planet and the form of expression for spiritual & physical balance of humanity was formulated during the life in Atlantis. The lives before that were working up to that goal of discovering the best form of service for your soul.

This life has been many things to you both personally & spiritually. In this life you have worked with many peoples from the past and completed ~~karmic~~ karmic cycles with them. Also you have brought to completion many of the personal goals set for yourself in other lives and have set some new ones for yourself to work on in <sup>time</sup> ~~life~~ to come. There are some changes in character and expression you have decided to work on in the next life. You began working on that in this life and I feel will continue to do so next time as well.

With the formation of the Foundation

much of what you wanted to complete in the past to aid humanity is coming to completion now and you have begun to formulate yet new spiritual goals for yourself as well.

Call in all you have learned a great deal and completed a great deal and in the next years ahead, you will yet complete much more. More I feel than you might think possible. Both personally and outwardly.

Will close for now so I can get this in the mail. By the way, all the planes out of Austin are booked up on Dec 19+20 because all the University students are leaving for holidays. May have to wait til after the First of Year to come up. Then I believe all our schedules will have slowed down some and it probably will come together easier.

I think of you often and I hope to be of service to you in whatever capacity I can. Michael says "John, keep the vision + the dream before you always and feed it love as you would your child, for you are the parent, and it is through that Parental Love and guidance that it can grow to maturity."

Michael is working hard for you & the  
Foundation. God bless. Say - Keep the faith -  
In the Masters Light & Service.

Love

Jim
